

Complete Business Startup Package All in One Appointment*

Starting a business is an exciting process. It can also be daunting. There are forms to fill out, documents to file with the Secretary of State and the IRS. Articles of Incorporation, Minutes, Bylaws, Stock Certificates.....it can be overwhelming.

At The Pearman Law Firm, P.C., we can help you navigate through the process and take your business from an idea to an entity very quickly.

TO AVOID PERSONAL LIABILITY, it is very important that you set up and operate your corporation or LLC properly. We can help you do just that. If we prepare your corporate book, including the minutes, bylaws, share certificates, you will **meet with an attorney** for instructions on how to properly set up the books and then operate your business to avoid personal liability. However, you may buy a corporate book from another source if you would like.

FOUR EASY STEPS:

1. You fill out a questionnaire form to provide the needed information.
2. You return the information (email, mail, fax, or drop off) with the fee and flat fee agreement.
3. We file the entity for you with the secretary of state.
4. If you want us to provide a corporate book and stock share certificates, an appointment is scheduled for you meet with an attorney for instructions on how to operate the business and to assist you in signing the appropriate documents for your new company.

All this in one appointment and very low prices.
