LAW FIRM PHILOSOPHY

The attorneys of The Pearman Law Firm, PC have experience in domestic, civil, probate, estate planning, and criminal cases, as well as business, corporate, real estate matters and bankruptcy.

We try to resolve a legal problem first by taking a reasonable, fair and economical approach to the case. However, if the opposition is unreasonable or overreaching, we will not hesitate to take the case to trial. The way to win inside and outside the courtroom is to be well prepared, know the law, and accurately assess the facts on both sides of the case. We advise every client as to the law, what the options are, and what the risks and benefits of each approach may be.

Our attorneys regularly attend continuing legal education classes and seminars to constantly be abreast of changes in the law and new strategies and technology available to meet the needs of our clients.

TECHNOLOGY

Technology has revolutionized the practice of law. By utilizing current and up to date technology and research tools, we are able to match the resources of a larger firm while still offering our clients a high level of personal service, cost effectiveness, and innovation.
